

MEDIAVUE

PRE-BUILT MEDIA WALL FIREPLACE FURNITURE

The MediaVue is a premium pre-built media wall fireplace designed for effortless DIY installation. Featuring a luxurious 1.5m wide three-sided electric fire, it brings contemporary elegance and warmth to any living space.

Available as either a floor-standing or wall-mounted unit, the MediaVue comes in 3 modern matt colour options, with the choice to add on-trend Oak Panelling for extra texture and style. It's purpose-built to house your TV and soundbar, keeping unsightly cables hidden and your setup streamlined.

The integrated soft-close drawer includes three internal compartments—ideal for storing remotes, gaming controllers, and other accessories. Customise your finish with either a slate or marble-effect top, both in a refined matt texture for a sophisticated touch.

For added ambiance, optional LED mood lighting can be installed below the wall-mounted unit or behind your TV—all seamlessly controlled via the fire's remote for a sleek, unified experience.

OAK SLATTED

OAK PANELLING

Shown in Midnight Mist Matt with Oak Slatted panelling detail & finished off with a Dark Slate top. The J-Pull soft close drawer front is a modern handleless design.

SMOOTH

MATT FINISH PANELLING

Shown in Indigo Matt with matching panelling detail & finished off with a Dark Slate top. The J-Pull soft close drawer front is a modern handleless design.

TECHNICAL / OPTIONS

The MediaVue has been designed to effortlessly fit in most spaces with a simple and swift installation.

With space to house TVs up to 65" and a ledge for your soundbar, the MediaVue is 1.83m wide & 1.97m tall (floorstanding) / 1.88m tall (wall mounted).

You'll need an appropriate TV bracket to secure your chosen TV either onto the provided back panel (if it's suitable for bracket type) or onto the rear wall. If you choose to fix it to the rear wall, you'll need to cut a hole in the back panel.

TV & Bracket not included.
